

U.S. Coast Guard Auxiliary Free Vessel Safety Check

Monroe County is # 1 in Boating Accidents

One of the USCG Auxiliary's missions is Recreational Boating Safety, which includes Vessel Safety Check & Public Education.

A VSC is a FREE SERVICE provided by a qualified Vessel Safety Examiner from the local Flotilla. It ensures that the vessel examined & its equipment comply with federal, state & local safety requirements.

What are the benefits?

- Preventing citations by ensuring the vessel meets federal, state & local safety equipment requirements
- Identifying possible equipment defects & costly breakdowns (such as the recent recall of defective fire extinguishers)
- Increasing safe boating practices to help boaters avoid accidents & injuries
- Providing a better understanding and use and care of their marine safety equipment.

Schedule a VSC – POC: Roger Bencze
